CONCURRENT RESOLUTION OF THE SENATE AND ASSEMBLY.

March 14, 1882.

*Resolved*, That five hundred copies of the University Manual be printed and bound for the use of the Regents of the University, and two hundred and fifty copies for the use of the Legislature, at a cost not to exceed one dollar per copy, payable on the certificate of the Secretary of the Board of Regents.

## PREFATORY NOTE.

---

In 1830 the Regents of the University directed Secretary Hawley to issue "Instructions" to the several academies subject to their visitation, relating chiefly to the requisites and forms of academic reports. Another edition was prepared in 1834, and still others, with wider scope of subject-matter, from time to time until 1845. In 1835 and 1847 similar instructions were provided for the colleges, and in 1849, by direction of the board, Secretary Beck combined the two codes into one. This, as revised in 1853, made an octavo volume of one hundred and sixty-six pages. These "Instructions" were replaced in 1864 by the "Manual of the Regents," edited by Secretary Woolworth; and this again in 1870 and 1872 by "The University Manual," reconstructed from the Manual of 1864 with large additions, by Assistant Secretary Pratt, who has also had charge of the present revision.

Besides numerous other additions consisting chiefly of laws and ordinances passed since 1870, chapters VIII, IX and XVII of this volume, treating respectively of the "Colonial History," and the "Natural History" of the

State, and "Examinations," have been inserted as new matter; while chapters XVIII, XX and the Appendix of the former edition have been omitted, and certain other chapters materially condensed. The utility of the present edition, although smaller by fifty pages than its predecessor, it is believed has been increased by these exchanges.

Since this work was completed and stereotyped, the Regents have passed an ordinance requiring a greater amount of property as a condition of incorporating academies and admitting academical departments to the visitation of the board; and both the Legislature and the Regents have taken important action relative to the instruction of common school teachers in academies. Supplementary information on these points will be furnished on application.

Regents of the University of the State of New York;” and by that name shall have perpetual succession, power to sue and be sued, to make and use a common seal and alter the same at pleasure, to hold property, real and personal, to the amount of the annual income of forty thousand bushels of wheat, and to buy and sell, and otherwise dispose of, lands and chattels.— [*Idem*, § 2.

§ 3. The regents are twenty-three in number, including the governor, lieutenant-governor, secretary of state and superintendent of public instruction, who are members of the board by virtue of their offices.— [*Idem*, § 3; *Laws of 1842*, ch. 142; 1854, ch. 97, § 5.

§ 4. With the exception of the governor, lieutenant-governor, secretary of state and superintendent of public instruction, the regents are appointed by the legislature, and may be removed by a concurrent resolution of the senate and assembly.— [1 R. S. 457, § 4.

## PART II.

## ORDINANCES OF THE REGENTS.

## CHAPTER XII.

## INCORPORATION OF COLLEGES.

SEC. 1. When any application is or shall be made to the regents for the incorporation of a college under the 6th section of the act of the legislature, passed the 5th day of April, 1813, entitled "An act relating to the University" (or *chap. 184 of the laws of 1853*, entitled "An act relative to the incorporation of colleges and academies"), the applicants will be required to satisfy the regents that suitable buildings for the use of the college will be provided, and that funds to the amount of *one hundred thousand dollars*, with which it is intended to found and provide for such college, have been paid or secured to be paid by valid subscriptions of responsible parties or otherwise.

§ 2. And in case the regents shall approve of said application, and the amount aforesaid shall not be invested for the use of said college, either in bonds and mortgages on unincumbered lands within this state, worth at least double the amount so secured therein, or in stocks of this state or the United States, at their market value at the time of the investment, or in the bonds or certificates of stocks legally issued

by some incorporated city of this state, at the par value, or in any one or more of the securities above enumerated, a charter shall be granted for the incorporation of such college, for a term of five years, with a condition or proviso therein, that if within the said term of five years, the trustees of said college shall present to the regents satisfactory evidence that they have invested for the use of said college, funds amounting to not less than one hundred thousand dollars, in the manner herein before mentioned, the charter shall be perpetual.—[*Ordinance of Jan. 9, 1851.*]

## CHAPTER XIII.

## INCORPORATION OF ACADEMIES.

[Academies are incorporated: 1. With absolute charters. 2. With provisional charters founded on endowments by donation. 3. With provisional charters founded on joint stock. The requirements for an absolute charter are an academy lot and building of the value of at least two thousand dollars. A library of the value of at least one hundred and fifty dollars. A philosophical apparatus of the value of at least one hundred and fifty dollars. The requirements for a provisional charter are a good and valid subscription to the amount of at least two thousand and five hundred dollars. A provisional charter will be declared absolute whenever it shall appear that a suitable building has been erected and a philosophical apparatus and library have been procured, and a school properly organized.]

SEC. 1. No academy will be received under the visitation of the regents, so as to entitle it to share in the distribution of the funds granted to academies, unless it appears that the academy lot and buildings, and the library and philosophical apparatus which it may own, have been fully paid for; or unless it appears that such lot and buildings, library and apparatus, are of the value of five thousand dollars or

upwards, and that the debts of such academy do not exceed one-third of the amount of the value thereof; and in such case it may be so received, but only on condition that it shall annually thereafter pay the interest of such debt, and at least five per cent of the principal thereof, until such debt be wholly paid and extinguished; and that on the omission of any such annual payment of interest and principal, or any part thereof, it shall, during such omission, cease to have any claim to share in the distribution of such funds. Nor will the regents incorporate any academy unless it appears that the academy lot and buildings, and the library and philosophical apparatus have been fully paid for, unless the value of such lot, buildings, library and philosophical apparatus shall be five thousand dollars or upwards, and the amount of the debts of such academy shall not exceed one-third of such value; and in any such case the charter will be granted only on the condition that the interest upon, and at least five per cent of the principal of its debts, shall be paid annually until the whole debt be paid and extinguished; and that any omission to make any such annual payment of interest and principal shall, in the discretion of the regents, bar it of all right to participate in the distribution of said fund. All academies heretofore provisionally chartered upon condition that they should not be entitled to share in the distribution of the fund granted to academies until their debts should be fully paid, upon due proof bringing them within these provisions, may have the

full benefit thereof, in the same manner, and to the same extent, as though their charters were upon the conditions hereinbefore prescribed, and their charters shall be taken, and are hereby declared to be amended accordingly. — [*Ordinance of Jan. 15, 1857.*]

§ 2. Every application to the regents of the university for an absolute charter for the incorporation of an academy founded on the endowment of property already possessed by the applicants, and every application of an academy, incorporated by the legislature, to become subject to the visitation of the regents, shall set forth, with all practicable precision, and in such form as is or shall be prescribed by the regents, a particular statement showing —

1st. The extent, general description, title and value of the ground on which the academy edifice is erected, or which is used for its accomodation at the time of making such application.

2d. The dimensions, general description, and value of the buildings erected on such ground for the use or accommodation of such academy, at the time last aforesaid.

3d. An inventory or catalogue of all the books and articles of philosophical or other apparatus belonging to such academy, with a just and fair estimate of their value, at the time last above referred to.

4th. A particular statement of all incumbrances on such academic property, or on any part thereof, at the time last above mentioned — it being the intention

of the regents to require every academy subject to their visitation, to own and possess such property to the value of at least two thousand five hundred dollars, over and above all incumbrances thereon, as a condition on which such academy will be allowed to receive a distributive share of the moneys belonging to the literature fund.

§ 3. And to the end that the regents may be the better enabled to ascertain the true value of such academic grounds, buildings and apparatus, at the time of making such application, the said statements shall also set forth and show, when and how the title to such ground, library and apparatus was first acquired, and if acquired by purchase, what the original or first cost thereof was; and also, when such buildings were erected, enlarged or otherwise improved, of what materials they are constructed, with the original or first cost of such buildings or improvements; also the state or condition of such academic property, at the time of making such report or application, in respect to its repair or fitness for use; and if the same be not in good repair, wherein, and how long it has been out of repair, and the probable cost of putting it in good repair, together with such other matters as may be found to influence in any respect the value of such property. That it shall be the duty of the trustees of every such academy, previous to making their said application as required by this ordinance, to submit the evidences of their title to the ground occupied for their academic buildings, to some

person of the degree of counselor at law in the supreme court, for his examination and to obtain from him a certificate in writing, stating his examination of the title submitted to him, with his opinion as to the nature and validity of such title, and stating, also, that he has caused the ordinary searches to be made for incumbrances on such property, with the result of such searches; which said certificate shall be transmitted by the said trustees, together with their said application, to the said regents.--[1853, *Oct.* 20.]

§ 4. Any college, academy, or institution of learning, desirous of obtaining amendments to, or alterations in its charter, shall give notice of its intended application to the regents for the same at least six weeks successively, immediately before said application is presented, in a newspaper published at or near the city, town or village in which said college, academy or institution of learning may be situated, and in the state paper. Duly authenticated proof of said publication shall be filed with the regents of the university.—[1853, *June* 10.]

damaged beyond the ordinary wear and tear thereof from necessary use, and to state in every such report whether such duty has been discharged, and whether any, and if any, what part of their books and apparatus shall on such comparison be found to be lost, destroyed or damaged as aforesaid, and through whose act, omission or neglect such loss or damage shall have happened.

§ 2. Every academy subject to the visitation of the regents of the university, and claiming a distributive share of the income of the literature fund, shall annually, on or before the first day of November, make and transmit to the regents (so that the same may be received by their secretary on or before that day) a report in writing, in such form as shall be prescribed, exhibiting a full view of its state and condition, at the close of its academic year, in respect to the following particulars, viz.:

2. *As to the Literary and Scientific condition of Academies.*

§ 3. The report required as above, shall also contain the number and names of its teachers, and the annual salary or compensation allowed to each; the age of such teachers; the time each has been engaged in teaching; the general course of study pursued preparatory to teaching; and whether the business of teaching is pursued as a permanent or a temporary employment.

§ 4. The said report shall also contain, or have appended or annexed to it, a true catalogue or list of all the students belonging to the academy at the date

of its report, or during part of the year ending on the date of its report, who are claimed by its trustees to be such classical scholars, or such scholars in the higher branches of English education, or both, and to have pursued their studies for such length of time as to entitle the academy to which they belong to a distributive share of the income of the literature fund, in which said catalogue or list shall be inserted the name or age of each student claimed to be such scholar as aforesaid, together with a specification of the different studies pursued by such student, and the length of time the same were pursued in each quarter or term of the year ending on the date of said report, by recitations of ordinary frequency and in the ordinary way, designating said studies by the ordinary name or title of the book or treatise on the subject so studied, and designating also the part or portion of the book or treatise so studied.

## CHAPTER XV.

EXAMINATION AND CLASSIFICATION OF SCHOLARS AND  
DISTRIBUTION OF THE LITERATURE FUND.

SECTION 1. The scholars in every academy subject to the visitation of the regents of the university shall be divided into two classes, to be denominated preparatory and academic. Preparatory scholars shall be those who pursue studies preliminary to the higher branches of English education; and academic scholars, those who, having passed the examination in preliminary studies hereinafter provided for, shall pursue the higher branches of English education, or the classics, or both.

§ 2. At or near the close of each academic year, and oftener, if judged necessary by the trustees of any academy, an examination in writing of all scholars presumed to have completed preliminary studies shall be held, in conformity with instructions to be issued by the chancellor and secretary of the university, under the direction of a committee of at least three persons to be appointed by the trustees of the academy. Printed sets of questions in arithmetic, English grammar and geography, and an exercise in spelling, shall be prepared or approved by the chancellor and secretary of the university, and furnished to each academy making due application for the same. A record of the names, ages and residences of all scholars who shall successfully pass such examination,

with the number of questions correctly answered in each exercise, shall be kept in a book provided for the purpose, and preserved as the property of the academy.

§ 3. The written answers to the questions and exercises, as given by each scholar who shall be claimed to have passed the examination, shall be forwarded to the secretary of the university within one month after the date of the examination, accompanied by a statement of the name, age and residence of each scholar claimed as aforesaid, and the number of correct answers claimed to have been given in each study, duly certified by the committee and verified by the affidavit of the principal; and to each scholar who shall be found to have answered at least seventy-five per cent of the questions on each subject, and to have written with correct spelling and in a fair and legible hand at least eighty-five per cent of the words in the spelling exercise, shall be given a certificate of academic scholarship, in such form as the chancellor of the university shall approve, and under the name of the chancellor and secretary, to be countersigned by the principal of the academy; which certificate shall entitle the person to whom it is granted to admission into the academic class in any academy subject to the visitation of the regents, without further examination. — [1870, *March 29*.

§ 4. The fourth section of the ordinance of March twenty-ninth, eighteen hundred and seventy (*University Manual*, 1870, pp. 83, 84), being in the words following, to wit:

“§ 4. Scholars admitted to any academy who have

not received the certificates of examination as aforesaid, and who claim or are presumed to be academic scholars, shall within one week of such admission be examined by the principal and other teachers of the academy, and if found to have completed the preliminary studies, shall be provisionally admitted to the academic class; but such admission shall not excuse such scholar from the examination above required at the close of the term, and the certificate as aforesaid shall be given only on such examination, but may have effect as if given at the commencement of the term, provided the committee shall be satisfied that the scholar to whom it was given was at that time entitled to it," is hereby repealed. — [1879, *July* 8.

§ 5. All scholars admitted to the academic class as aforesaid, shall be regarded as scholars in the higher branches of English education or as classical scholars; and having after such admission pursued studies usually regarded as in advance of arithmetic, English grammar, and geography, as aforesaid, or having become thoroughly proficient in the elementary works usually studied prior to the classics, and in addition thereto having studied the first book of Virgil, or its equivalent in Cæsar, Sallust or Cicero, shall entitle the academy to which they belong to a share in the distribution of the literature fund, provided they have pursued such studies for four months or upwards of the year for which the distribution is made; the said four months to embrace at least thirteen full weeks of study.—[1870, *March* 29.

The ordinances, heretofore in force, relative to the distribution of the literature fund, are hereby amended by the addition of the following, viz. (§§ 6-8) :

§ 6. In accordance with the provisions of chapter 514, of the laws of 1880, a portion of the income of the literature fund, not to exceed the one-fourth part thereof, shall hereafter be distributed in proportion to the number of pupils in the several academies, who during the preceding year have passed the advanced examination [established by the Regents under the provisions of chapter 425, § 6, of the laws of 1877]; and in such distribution the pupils to be counted shall be those, only, whose examination for intermediate certificates, or for diplomas, shall be completed at the academic examinations held November, 1880, or subsequent thereto; provided that they have been in attendance at said academies for a period of not less than thirteen weeks during the year for which such distribution is made; and for each such pupil who, during the academic year preceding the time of apportionment, shall complete the examination required for the Regents' diploma, the sum of ten dollars shall be allotted to each academy, and for each additional pupil who in like manner shall complete the examinations required for the intermediate certificate, the sum of five dollars; provided that the whole sum so distributed does not exceed the one-fourth part of the amount appropriated from the literature fund as prescribed by law; but when a greater sum than said fourth part would be required, then the

amount allotted for each pupil shall be so reduced that the whole sum shall conform to the legal limit.

§ 7. The statute which provides in regard to the distribution of the literature fund, that "every such distribution shall be made in proportion to the number of pupils in each seminary, who, for four months during the preceding year, shall have pursued therein classical studies, or the higher branches of English education, or both" (1 R. S. 458, § 24), is to be construed as requiring such pupils to pursue at least three subjects of study during the period prescribed by law, or, if a less number, a proportionally greater amount of time shall be devoted to them: this clause to take effect at the beginning of next academic year.

§ 8. It shall be deemed a sufficient compliance with the ordinance of March 29, 1870, § 5, that scholars counted in the distribution of the literature fund shall have passed the preliminary examination at or before the close of the academic year for which the distribution is made, instead of wholly in advance of the required period of study.—[1881, *January* 13.]

§ 9. Whenever an academical department of a union school shall be established by the adoption of an existing academy, as authorized by chapter 555, title ix, § 24 of the laws of 1864, such department shall not be recognized and allowed [after January 1, 1881] to participate in the distribution of funds apportioned by said regents of the university, until it shall have been formally received under visitation, on due application made by the board of education

of such union school, in the form prescribed for academical departments established *de novo*.—[1880, January 9.

§ 10. All scholars in the academic class shall be exercised in composition and declamation alternately, as often as once in every week, and in spelling, reading and writing as often as thorough proficiency in those subjects shall require; except that instead of declamation, females may be exercised in reading, with special regard to elocution. — [1853, October 20.

§ 11. The apportionment or distribution of the income of the literature fund among academies is made by the regents of the university, at their annual meeting in January. Soon after the apportionment is made, it is published in the State paper for the time being, and certified by the chancellor and secretary of the university to the comptroller, on whose warrant the amount apportioned to each academy will be paid by the treasurer of the State, on drafts or orders therefor drawn on him by the treasurers of the several academies; such drafts or orders being accompanied by a proper certificate from the president or secretary of the academy, under its corporate seal, that the person signing the draft is the treasurer of the academy, duly appointed by the trustees thereof. The draft must be in the following form, duly indorsed:

Dated at \_\_\_\_\_, 18\_\_\_\_.

It is hereby certified that \_\_\_\_\_, the person signing the above draft or order, is the treasurer of the said academy, duly appointed by the trustees thereof, and that the said draft was duly signed by him.

A copy of the above form of draft, including the amount apportioned, will be forwarded from the office of the regents to the treasurer of each academy, for his signature and indorsement and the requisite certificate. Such draft may be negotiated through a bank, or may be sent by post to the treasurer of the State, who will forward his check for the amount.

§ 12. No part of the revenue of the literature fund, to be assigned to any academy or school for the purchase of text books, maps and globes, or philosophical or chemical apparatus, shall be paid over to such academy or school, until the trustees thereof shall certify and declare, under their corporate seal, that the money required to be raised and applied by them for the said purposes has been raised by contribution, donation, or from other sources independent of their own corporate property, that the said money has been so raised or contributed with the express view of applying for and receiving a like sum from the regents for the purposes aforesaid, and that the same has been actually paid to their treasurer, and is held by him to

be applied for the purpose above mentioned, designating such purpose by specifying the particular books, maps and articles of apparatus proposed to be purchased by them, and classifying them as hereafter directed.

§ 13. Whenever (but not oftener than once a year) the trustees of any such academy or school shall present to the regents the certificate required by the preceding section, in the form hereafter prescribed, and the matters contained therein be satisfactory to them, they, the said regents, will appropriate such a sum of money, not to exceed one hundred and fifty dollars, as may be authorized by law and the provisions of their ordinances.

§ 14. The money so raised and granted shall be applied in the purchases specified in such certificate, but the regents reserve the right to disapprove of a part or the whole of said proposed purchases, and to designate and direct what may be purchased in lieu thereof or of part thereof, notice of the articles so to be designated and substituted to be given to said trustees.

§ 15. Whenever any appropriation shall thus be made by the regents, it shall be the duty of the chancellor and secretary of the university to certify the same to the comptroller of the State, that the same may be paid by him according to the statute in such case made and provided.

§ 16. Such appropriations do not apply to the sums of money required for the endowment of an academy,

viz., \$150 for the purchase of a library and \$150 for the purchase of an apparatus, nor for the purchase of chemicals, musical instruments, or miscellaneous books not specially suitable and valuable for the purposes of academic instruction.

§ 17. Contributions of books, apparatus, minerals, etc., shall not be considered as a sufficient compliance with the above requirements; but the contributions shall be in actual money.

§ 18. The term "text books," as used in chapter 536, § 3, of the laws of 1851, is construed to include all standard books, designed for use as class or text books, and such other works for reading and reference as are useful for the purposes of academic instruction.

§ 19. Every academy to which moneys shall be granted for the purchase of books and apparatus, is hereby required to report in detail to the regents, in its next annual report presented after said grant, the full and complete expenditure of all moneys, both raised and granted, for the above purpose, and that the books and articles purchased are held as the property and for the use of the academy; and until it does so account, the regents will withhold the amount unaccounted for from the respective share of each academy, in the distribution of the revenue of the literature and United States deposit funds. Nor will the regents make any new appropriation to said academy, unless the above requisition has been fully complied with.

§ 20. The appropriations directed by this ordinance

shall be made at the annual meeting of the regents in January; and if the sum appropriated by the legislature for this purpose is not exhausted by the applications at that meeting, then future applications may be acted on at the semi-annual meeting in July.— [1853, *October 20* ; 1881, *January 13*.]

§ 21. One thousand dollars of the sum annually appropriated by the legislature for the purchase of books and apparatus shall be apportioned among the schools making application [in the form hereinafter prescribed, § 25] *pro rata*, according to the number of scholars admitted to the distribution of the literature fund; provided that no school shall receive an amount greater than that actually raised and duly applied for.

§ 22. Whenever there shall be applications to the regents of the university for appropriations of money to purchase books and apparatus, and there shall not be a sufficient amount remaining, after the *pro rata* apportionment of one thousand dollars, as provided by the next preceding section of this ordinance, to grant such applications in full, distribution shall be made as follows:

1. Schools which have not received an appropriation shall have preference.

2. Schools which have not received an appropriation within ten years may be admitted to the apportionment *de novo*.

3. Schools which have received less than two hundred and fifty dollars may receive to that amount.

4. No school may receive one hundred and fifty

dollars in each of two successive years, nor more than five hundred dollars within ten years.

§ 23. Applications disallowed by the regents either wholly or in part for the want of funds, may be renewed by resolution of the applicants duly certified and filed with the regents.

§ 24. Applications received before December fifteenth in each year shall have preference over any received at a later date, before the next annual meeting of the regents.—[1880, *July 14*; 1881, *January 13*.

§ 25. All applications for money to purchase books and apparatus must be in the following form :

*To the Regents of the University of the State of New York :*

The trustees of \_\_\_\_\_ academy respectfully represent that they have raised or caused to be raised, the sum of \_\_\_\_\_ dollars, to be applied to the purchase of books or philosophical or chemical apparatus, pursuant to the statute in such case made and provided; that the said sum has been raised by donations or contributions from *sources independent of their own corporate property, or by taxation*; that the same has been actually paid to their treasurer and is held by him for the purpose aforesaid; that the said money has been so raised or contributed [here state the source from which the money was raised, whether by subscription, tax, or otherwise] *with the express view of applying for and receiving a like sum from the regents for the purpose contemplated in the statute*; and that it is intended to apply the said sum of money, together with the money hereby applied for pursuant to said act, to the purchase of the books and articles of apparatus particularly specified in the schedule hereunto annexed.

The said trustees therefore hereby apply to the regents of the university for an appropriation to the said

academy of the sum of            dollars out of the moneys mentioned in the said act, to be applied, together with the like sum raised by them as above mentioned, before the date of the next annual report, to the purposes stated in said schedule, pursuant to the provisions of the act above referred to.

#### RULES AND REGULATIONS ESTABLISHED BY THE REGENTS OF THE UNIVERSITY, *September 5, 1873.*

1. Any person wishing to be examined as authorized by the fifth section of the act referred to [*Laws of 1872, ch. 746; ante, p. 8.*], after he shall have made the payment required in said section, shall apply in writing to the chancellor for such examination, and shall also present to him in writing the preliminary proofs as to age, character, attainments and professional studies required by the said act.

2. If the proofs thus presented be satisfactory to the chancellor, he shall give his certificate thereof in writing, to be filed with such proof in the office of the regents, and grant an order addressed to any board of examiners appointed under the said act, authorizing such board to examine such candidate as required by the said act and these rules, and to furnish to the regents of the university, in writing, a full report of such examination and the opinions of the examiners, within such time, to be named in said order, not exceeding three months from the date thereof, as the chancellor may deem to be reasonable, which time may be extended on satisfactory cause being shown to him.

3. The chairman of the board of examiners shall convene the board within thirty days after receiving the said order, giving at least ten days' notice in writing to its members, and also to the president of each of the State medical societies of this State, of the time and place of meeting, and of the name of the candidate or candidates to be examined.

4. The said board may, from time to time, make such rules in writing, as to the attendance of its members and for its own conduct and government, as it may deem proper; a copy of which rules shall be filed with the secretary of the university, and all such rules shall be subject to repeal, alteration or amendment by the regents.

5. The examination of every candidate shall be open to the members of the medical profession, wher-

ever resident, and to the regents of the university. It shall be conducted by examination papers, to be furnished by the regents to the chairman of the board of examiners in sealed envelopes, in sets of not more than five questions in each envelope. At the commencement of the examination, the chairman of the board shall deliver one of said envelopes, so sealed to each member of the board present and to each candidate, and shall thereupon fix and declare the time to be allowed in which to answer that set of questions. The questions shall be the same for all the candidates at the same examination.

The answer shall be in writing in the following form :

ANSWER OF A. B. TO THE QUESTIONS HERETO  
ANNEXED.

To the first question he says [here insert answer], and so on through all the questions.

When the candidate shall have completed his answers to all the questions, or the time fixed by the chairman shall have expired, he shall sign his name to the answers and annex thereto the questions, and deliver the same to the chairman, and so on with other sets of questions until the whole examination be completed.

The examiners may also examine the candidates by oral questions after the paper examination is concluded; but each oral question shall be correctly written down at the time, before it is answered, and

the answer thereto shall also be immediately written down, and such oral examination, as well as the paper examination, shall make part of the report to the regents.

No candidate shall, during the time devoted to his examination on any one set of questions, consult any person, book or paper, or leave the room in which said examination is conducted.

6. Every member of a board of examiners shall, within twenty days after the issuing of the order provided for in the second of these rules, send to the regents of the university (addressed to the secretary) at least fifty written questions proper to be put to the candidates, to be classified in any way he may deem proper. From said questions, and others to be proposed by the regents or other persons, the regents shall select the questions to be put to the candidates as aforesaid.

7. Any candidate who shall be commended for distinguished merit in the report of the examining board, and who shall also present to the regents a dissertation on some medical topic, written in either Latin or English, may, if the regents so direct, receive special notice of such merit at the University Convocation next succeeding his examination.

8. The degree of "Doctor of Medicine of the University of the State of New York," which may be granted in conformity to the said act, will be conferred in form, either at a meeting of the regents, or at the then next University Convocation.

9. The secretary of the regents is hereby authorized, out of the moneys which may be received from candidates, pursuant to the fifth and seventh sections of the said act, to pay in the first place all proper incidental expenses attending the examination and proceedings aforesaid, to be audited by him, and then the actual traveling expenses of the examiners, or such part thereof as the fund may warrant, to be audited in like manner.

10. Any vacancy which may occur in any board of examiners, when the regents are not in session, may be filled by the chancellor by an appointment, to continue in force until the next meeting of the regents.

11. The secretary of the regents is directed to communicate a copy of these rules and regulations to the president of each of the State medical societies and medical colleges in the State.

## II. *Academic Examinations.*\*

1. The Regents have under authority of law established, in the academies under their visitation, a system of examinations, for the purpose of determining the ratio in which the income of the literature fund shall be distributed, and for the purpose of fixing a suitable grade for such studies as may be pursued therein.

2. The preliminary examination is designed to determine what scholars are to be classed as academic

---

\* For the statutes relating to these examinations, see page 8.

scholars and be counted in the distribution of the literature fund. The subjects of examination are, arithmetic, geography, English grammar and spelling. It is intended to mark the point at which scholars may be considered as having attained to such a knowledge of these subjects as may be acquired in the common schools of the State, and as being qualified to enter upon classical studies or the higher branches of English. A certificate is issued to such as have passed this examination.

3. The advanced examinations are held on such subjects as are required for admission to the colleges of the State, and on such other subjects as are usually pursued in schools of the academic grade. They are therefore arranged for two courses of study, the college entrance course and the academic course. In the college entrance course a certificate of progress, called the intermediate certificate, is given for algebra, plane geometry, American history, and Latin through four books of Cæsar's Commentaries, and the Regents' diploma when the whole group of college entrance studies is finished. In the academic course the intermediate certificate is given for algebra, plane geometry, American history, physical geography, physiology and rhetoric, and the Regents' diploma for eight additional subjects — four to be chosen from group I, and four from group II. It is allowed in the latter course to substitute language studies for other subjects, as follows, viz. : Cæsar's Commentaries, including the elements of Latin for any three

subjects, Virgil's *Æneid*, French translated at sight, or German translated at sight, for any two subjects, and Sallust's *Catiline*, Virgil's *Eclogues*, or Cicero's *Orations*, for one subject, *except* that for at least two subjects in group I, and two in group II, and for algebra, geometry and American history, no substitution will be allowed.

*Intermediate*.—Algebra, American history, physical geography, physiology, plane geometry, rhetoric.

*Group I*.—Book-keeping, botany, geology, history of Greece, moral philosophy, political economy, science of government, zoölogy.

*Group II*.—Astronomy, chemistry, English literature, history of England, mental philosophy, physics, plane trigonometry, history of Rome.

*College entrance*.—Algebra, geometry and American history (see col. 1); *Cæsar's Com.*, books 1-4; Sallust's *Catiline*; Virgil's *Æneid*, books 1-6; Virgil's *Eclogues*, Cicero, six orations; Latin composition, Xenophon's *Anabasis*, books 1-5; Homer's *Iliad*, books 1-3.

*Substitutes*.—French translation, German translation.

4. The candidates who may be admitted to the preliminary examination are: *First*, scholars in the academy who are presumed to be prepared. *Second*, "Any scholar from any common school who may apply for such examination, bearing the certificate of the principal teacher, or of any trustee of such

school, that, in his judgment, such scholar is qualified to pass the said examination." (*Laws of 1873*, chap. 642, § 4.)

5. Candidates for the advanced examinations must be members of the academy or academic department under the visitation of the Regents in which the examination takes place. Candidates are permitted to take the advanced examinations without having passed the preliminary, but no such candidate can receive any certificate or diploma for advanced subjects unless he has already received the preliminary certificate.

By an ordinance passed January 14, 1881, the Regents have directed that the privileges of the advanced academic examinations, held by the Regents in the several academies under their visitation, be extended to candidates not in actual attendance at such academies, under the following restrictions and conditions: *First*, that such candidates shall be registered in some one of the academies under the visitation of the Regents, and shall pursue their studies under the supervision of the principal thereof; *second*, that such candidates shall pass their examinations in the several subjects at the same time and under the same regulations as the candidates in attendance at such academies; *third*, that such candidates so registered and examined at any academy shall not be counted in the claims of such academy for its share in the distribution of the literature fund; but such academy shall be entitled to receive from each candidate a fee of one dollar at

the time of registration, and a further fee of one dollar for each subject entered for examination.

6. The examinations are to be held under the direction of a committee of at least three persons other than teachers in the school, either ladies or gentlemen, or both, appointed by the trustees of the academy or academical department, with the co-operation of the principal, in conformity with instructions issued by the Chancellor and Secretary of the University. The same committee, if more convenient, may take charge of both the preliminary and advanced examinations. The chief duty of the committee, by virtue of accepting this trust, is to see that the instructions are observed in every particular. If any institution cannot command the services of a capable and efficient committee, and the constant presence of at least one member, it must forego the privilege of the examination.

7. Sets of printed questions in all the subjects of examination will be issued at each examination. These will be sent (generally by express, for parcels weighing more than four ounces, prepaid to destination) to the chairman of the examining committee the week before the examination, provided the number of sets of questions needed and the names of the committee be seasonably furnished. A circular, asking how many sets of questions will be needed, will be sent to each academic institution subject to the visitation of the Regents, in advance of each examination; but in the event of its non-receipt at least ten days before the examination, the Secretary of the Re-

gents should be informed, by letter or otherwise, how many question papers are required. The chairman of the committee is to retain the questions in his own possession until the beginning of each session of the examination.

8. Candidates are to be allowed the prescribed time and no more for the completion of their answers; they are not to be allowed to give or receive aid; and at the expiration of the allotted time, they must subscribe to a declaration that prior to the session they had no knowledge of the questions to be proposed, and that they neither gave nor received aid in answering them.

9. The answer papers of the candidates are to be examined by the committee or by the principal and other teachers, who are to determine whether they are, in their judgment, entitled to the required amount of credit to be passed. These answer papers so approved are to be transmitted to the office of the Regents, accompanied by statements properly attested by the committee and the principal.

10. All answer papers sent to the Regents, as above required, are re-examined under their direction, and such as are not conformable to the instructions, or are found deficient or unsatisfactory, are disallowed. Notice of the result of this revision is sent to the principal. Pass cards, showing the several subjects in the advanced examination which have been satisfactorily passed, are issued to the candidates.

11. To the candidates who have satisfactorily passed in arithmetic, English grammar, geography and spell-

ing, the Regents' certificate of academic scholarship is issued, authorizing the admission of the holder, without further examination, into the academic class in any academy subject to the visitation of the Regents. It is required that the answer papers of each candidate in all of the above subjects be forwarded at once, so that the whole set may be approved at once; but it is allowed that each subject may be taken separately, provided that when a period of three years has elapsed since any subject was passed before all are completed, such subject must be taken again.

12. The Regents' intermediate certificate and the Regents' academic diploma are issued whenever the candidate has passed in the subjects of the advanced examination required by section three. The diploma is issued under the seal of the University and will show the several subjects in which the candidate has passed.

## CHAPTER XVIII.

## CHAPTER XIX.

## INSTRUCTION OF COMMON SCHOOL TEACHERS.

The designation of institutions to give instruction, under the provisions of chapter 425, sections 2-5, of the Laws of 1877 (pp. 46, 47, *ante*), will ordinarily be at or before the semi-annual meeting of the Regents in July, on due application by the trustees in the following form, with answers to the several questions :

*To the Regents of the University of the State of New York :*

The trustees of \_\_\_\_\_ hereby apply to the Regents of the University for appointment to instruct a class in the science and practice of common school teaching, during one term of the academic year 18\_\_\_\_, under the course prescribed by the said Regents, as provided by law. In support of this application, the aforesaid trustees respectfully represent, in answer to the inquiries made in this form of application, as follows :

Q. 1. How many townships (if any), besides your own, will probably be represented in the teachers' class, if organized under appointment ?

Q. 2. Can you rely upon the school commissioner of the district to aid in securing suitable members of the class and in visitation of the class during the course of instruction ?

Q. 3. What is the probable number of suitable scholars, according to the standard prescribed by the Regents in their instructions, who will apply for admission to the class for at least ten weeks ?

Q. 4. During which third of the year (fall, winter or spring) will it be desirable to instruct the class ?

Q. 5. How much time will be given to the special and separate instruction of the class, and by whom : the principal, or an assistant, or both ?

Signed by officers of the Board.

DATED, \_\_\_\_\_, 18

The funds at the disposal of the Regents not being sufficient to provide for the desirable number of full classes of twenty-five scholars for a term of thirteen weeks, the time will be limited to ten weeks when the class is full, making a maximum of two hundred and fifty weeks.

When the number in the class is less than twenty-five, the time may be extended, not to exceed thirteen weeks all in one term, the whole number of weeks not to exceed two hundred and fifty.

As the statute requires at least ten scholars in attendance not less than ten weeks each, the minimum for which allowance can be made is one hundred weeks.

*Provisional* appointments are sometimes made, with the understanding that payment for instruction given is contingent upon the sufficiency of the appropriation, after the regular appointment shall have been provided for.

## INSTRUCTIONS.

---

1. When an appointment to instruct a teachers' class has been received, general and seasonable notice of the organization of the class must be given, that all in the vicinity who desire it may have opportunity to apply for admission. Members of the class are to be selected from the applicants, by the joint action of the trustees and principal, who are to ask counsel and aid from the school commissioner of the district in securing suitable applicants.

2. The following conditions of admission to the class must be observed :

(a) The candidates must have attained the age, if males, of eighteen, and if females, of sixteen years.

(b) They should be residents of the county in which the academy is situated (or the next adjacent county of this State, when the institution is near the county line), and fairly distributed among the several townships from which the ordinary patronage of the school is derived.

(c) They must have passed the Regents' preliminary examination, or must give promise of being able to pass said examination before the close of the course.

(d) They must subscribe, in good faith, the following declaration, and the trustees and principal must be satisfied that the candidates are honest in making

it, and that they have the moral character, talents and aptness necessary to success in teaching:

“ We, the subscribers, hereby declare that our object in asking admission to the teachers’ class of academy is to prepare ourselves more thoroughly for the important duty of teaching in the public schools of the State, and that it is our intention to become teachers.”

(e) No applicant may be admitted to the full privileges of the class who cannot comply with and be reasonably expected to fulfil all the conditions prescribed, and to devote the requisite time to the special work of the class.

3. The teachers’ class must be organized and known as a special and distinct class, the instruction of which, so far as it relates to the preparation of its members for teaching, must be conducted separately. Not less than one and a half full hours of each school day must be devoted to this separate and special instruction of the class.

4. The following subjects of study are prescribed, to be pursued by the teachers’ class :

Reading ;

Spelling;

Writing ;

Arithmetic, intellectual and written;

English grammar;

Geography ;

United States history;

Science of government;

Principles of teaching.

It is assumed that the members of the class are already well versed in the first six of these subjects so far as a knowledge of them is concerned. United States history and science of government may be taken as distinct studies by the class, or may be studied by the members in connection with other classes in these subjects in the school.

The full time of one and a half hours each day is to be occupied in drilling the class in the methods of giving instruction in the several subjects ; and opportunities, under proper supervision and guidance, must be furnished for testing the skill and ability of each member by actual practice in teaching other classes of the school, or in conducting, by turns, the exercises of the teachers' class.

In reading, writing and spelling the class should be drilled with special reference to the proper methods of training the scholars of a common school in these exercises. The chief aim should be to cultivate an agreeable and effective style of reading ordinary prose ; a neat, legible and ready business hand ; and the habit of correct spelling in all exercises and business conducted in writing.

The exercises of the class in arithmetic, English grammar and geography should be of the character of "Institute drills." A programme for the entire course should be laid out, and a definite number of drills in each subject arranged. For each of these a topic should be assigned ; thus in arithmetic, (1) addition and subtraction, (2) multiplication and division, (3)

vulgar fractions, (4) decimal fractions, &c.; in grammar, (1) nouns and pronouns, (2) qualifying words, (3) verbs, (4) connecting words, (5) sentences, &c.; in geography, (1) general notions about the earth, (2) about land, (3) about oceans, (4) about rivers, &c. In this way the principal topics which are to be taught in common schools should be taken up and the best methods of teaching them explained and exemplified.

In addition to this practical drill in teaching, the class should study some suitable manual as to principles of teaching, with the view of becoming familiar with the best methods of organizing schools and classes, maintaining order and discipline, inspiring scholars with a love of knowledge, conducting examinations and general exercises, and enlisting the cooperation of trustees, parents and guardians.

5. If any members of the class have not passed the Regents' preliminary examination, or have not attained such a knowledge of the subjects of the course as will, when supplemented by the special drill above described, enable them to pass this examination, they may be allowed to take up such subjects outside of the class exercises with other classes of the school.

And if any members of the class have time, after faithfully doing all that is required above, they may be allowed to pursue such other subjects of study as will be most profitable, for which, however, no tuition may be charged.

6. An examination on the special work of the class must be held at or near the close of the course of instruction, under such regulations as the Regents may

make; and only those who shall have passed the Regents' preliminary examination, and shall pass this final examination, will be allowed by the Regents in apportionments for the instruction of common school teachers.

This examination will be oral as to reading and spelling and written as to other subjects. In arithmetic, English grammar and geography the examination will pertain chiefly to the methods of teaching these subjects, but will take for granted an adequate knowledge of them. In United States history and science of government, only such a knowledge will be expected as can be acquired during the continuance of the class; and if any member of the class has already passed the Regents' examination in these subjects he shall be excused from this final examination.

7. The school commissioner of the district in which the academy is situated must be informed when the class is to be organized and when finally examined, furnished with a programme of the class exercises, and invited to make frequent visits and co-operate in securing the best results. To this end every facility for observing the work and testing the proficiency of each member of the class must be afforded, and any counsel or official direction which he may give must be duly regarded.

8. The principal of the academy is directed, as soon as the class is organized, to notify the Secretary of the Regents, stating the number of pupils admitted, the plan of instruction, and when the final examination will be held.

9. Every institution asking and accepting appointment to instruct a teachers' class will be understood to assent to these instructions, and expected strictly to conform to them. The object of the statute, to wit, the preparation of well-qualified teachers for the common schools, must be kept in view; and it is expected that the trustees and principals of academies will realize the obligation which they assume of rendering a full equivalent for the liberal appropriation made by the State. Trustees of academies are at liberty to designate the particular term in which the instruction is to be given, unless the appointment is made for a particular term.

10. These instructions must be read to the class at its organization and repeatedly thereafter, that all may fully understand the requirements of the Regents, and be stimulated to the highest efforts for their realization.

## CHAPTER XXI.

THE UNIVERSITY CONVOCATION OF THE STATE OF  
NEW YORK.

§ 1. *Resolved*, That it is expedient to hold annually, under the direction of this board, a meeting of officers of colleges and academies, and that a committee be appointed to draft a programme of business for the proposed meeting, to fix the time and place, and to make such other arrangements as they may deem necessary.—[*In Board of Regents, January 9, 1863.*

§ 2. *Resolved*, That it is eminently desirable that the Regents and the instructors in the colleges and academies should thus meet with reference to the attainments of the following objects:

1st. To secure a better acquaintance among those engaged in these departments of instruction, with each other and with the Regents.

2d. To secure an interchange of opinions on the best methods of instruction in both colleges and academies; and, as a consequence,

3d. To advance the standard of education throughout the State.

4th. To adopt such common rules as may seem best fitted to promote the harmonious workings of the State system of education.

5th. To consult and co-operate with the Regents in devising and executing such plans of education as the advanced state of the population may demand.

6th. To exert a direct influence upon the people and the Legislature of the State, personally and through the press, so as to secure such an appreciation of a thorough system of education, together with such pecuniary aid and legislative enactments, as will place the institutions here represented in a position worthy of the population and resources of the State.

§ 3. *Resolved*, That this meeting of officers of colleges and academies be hereafter known and designated as "The University Convocation of the State of New York."

§ 4. *Resolved*, That the members of this Convocation shall embrace :

1. The members of the Board of Regents.

2. All instructors in colleges, normal schools, academies and higher departments of public schools that are subject to the visitation of the Regents, and (by amendment of 1868) the trustees of all such institutions.

3. The president, first vice-president, and the recording and corresponding secretaries of the New York State Teachers' Association.

§ 5. *Resolved*, That the Chancellor and Secretary of the Board of Regents shall act severally as the presiding officer and permanent Secretary of the Convocation.

§ 6. *Resolved*, That the meeting of this Convocation shall be held annually, in the city of Albany, on the first Tuesday in August [see *amendment*], at ten o'clock, A. M., unless otherwise appointed by the Board of Regents. [*Amended*, in 1873, as to the time of

meeting, by making it the first Tuesday after the Fourth of July, except when the Fourth occurs on Monday, in which case it shall be the second Tuesday thereafter.]

§ 7. *Resolved*, That at each annual Convocation the Chancellor shall announce the appointment, by the Regents, of an executive committee of seven members, who shall meet during the recess of the Convocation, at such time and place as the Regents may direct, with authority to transact business connected with its general object.—[*In Convocation, August 5, 1863.*

§ 8. *Resolved*, That the Regents be requested to invite the attendance of representatives of colleges of other States at future anniversaries of the Convocation.—[*In Convocation, August 8, 1867.*

§ 9. *Resolved*, That there be appointed by the Chancellor, at each annual meeting, a committee of necrology, to consist of three persons.

§ 10. *Resolved*, That it shall be the duty of each member of the Convocation to notify the chairman of the committee of necrology of the decease of members occurring in their immediate neighborhood or circle of acquaintance, as an assistance to the preparation of their report.

§ 11. *Resolved*, That the Secretary publish, with the report of each year's proceedings, the original resolutions of 1863, as they are or may be from time to time amended, together with the two foregoing, as a means of better informing the members of the Convocation in regard to its nature and the purposes of its organization.—[*In Convocation, August 5, 1868.*

## THE STATE LIBRARY.

§ 1. *Ordered*, That the librarian of the law department of the library is hereby instructed to enforce the provisions of the concurrent resolution of the Senate and Assembly of 16th April, 1861, declaring it to be the duty of the trustees of the library to secure its uninterrupted use to the purposes named in said resolution, and to limit its use substantially to the persons and officers by said resolution designated.

And that to that end the occupation of the room of that department as a study or reading room, and the use of its volumes as text-books by law students is prohibited.

And to carry out in part the purposes of the library as above expressed, the librarian of the general library is instructed not to deliver to visitors, for general and continuous reading in the library, works of fiction, light literature, travels, literary periodicals, and publications of like character.

§ 3. *Ordered*, That from and after the first day of February next, the regular meetings of the library committee be on the first Tuesdays of March, May, July, September, November and January, and that special meetings may be called by the Chancellor in his discretion.—[*Ordinances of January 10, 1879.*
